

# GEMS 2022

# Mentor Session with Professor Christopher Young

Dear Professor Christopher Young,

I am David Cerquetti from Italy, I came to visit you in LA this year in February and it was the best experience of my life. After trying to reach out to you for the entire 2021 now it seems a dream for me to have the possibility of finally studying with you in a one on one session.

Thank you for your inspirational encouragement and for your help during the previous months. I prepared some material for you and I did a rescore from SpiderMan3. Can't wait to discuss it with you.

Looking forward to studying under your guidance.

David
